

Vertical AVTV Updates Walkways for Northpark Town Center

July 2015 - Northpark Town Center, owned and managed by Cousins Properties, has walkways connecting their 3 large office buildings. They enlisted in the help of Vertical AVTV to upgrade their existing sound system throughout the walkways. Vertical AVTV installed 29 weather-proof Tannoy speakers and 5 volume control panels so that visitors to the complex can listen to DIRECTV's SonicTap programming. They also updated the existing speakers in the lobby to provide better sound quality for guests. As a result, employees and visitors can appreciate music as they walk to and from the offices.

ABOUT VERTICAL AVTV

Vertical AVTV is a single source for audio visual and satellite television turn-key solutions. We provide a fully managed satellite television system as well as a wide range of audio visual products and services including system design, engineering and programming, project management, hardware and technology, installation and integration, and service and maintenance.
