

VERTICAL VIEW

January 2014

Newsletter and Industry Insights from Vertical AVTV

Vertical AVTV owns and manages a DIRECTV satellite television system in your building. In addition to the DIRECTV programming, we provide a wide range of audio visual services including the design, engineering, hardware, installation, integration and ongoing maintenance.

Vertical AVTV brings high definition television to your office so you can have access to all of the programming DIRECTV has to offer, including the latest financial news from CNBC, Bloomberg, CNN, and Fox News.

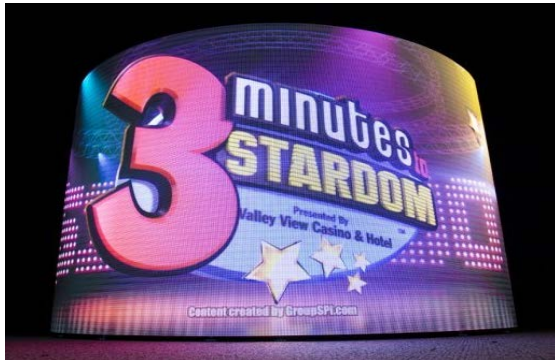

You can also watch 2014's major sporting events from around the world such as the Winter Olympics in Sochi, the Super Bowl in New York, and Soccer's World Cup in Brazil.

Conference Room Technology

Technology is changing more rapidly than ever and 2014 will continue that trend in how technology affects the workplace. Multi-media presentation systems have changed the way businesses communicate with their customers, investors, partners and employees. Interactive presentations utilizing smart phones, tablets, WiFi, LED televisions, projectors, video conferencing, audio systems, and control systems have enhanced the user experience and allow presenters to easily display information, interact with their audience and tell their story.

What's New in 2014 - TV Technology

CES 2014

The Consumer Electronics Show every January showcases new technology and allows television manufacturers to show off their new products. 2014 is no different and the television world is now offering 4K HD, curved LED panels, and more.
